**FISU Forum March 26-31, 2012
Taipei City, Chinese Taipei
Contribution opportunities to two FISU Forum sub-themes**

FISU (International University Sports Federation) and the Organising Committee for the 2012 Forum would like to offer an opportunity unique firstly to 'student delegates' and secondly to 'senior' (non-student) delegates to the Forum, to both promote best practice and maybe present a local model relating to two of the Forum sub-themes. These are mildly competitive

**Courtesy of Student Services Division
Spring 2012**

opportunities, and submissions will be assessed by members of CESU in order to deliver an exciting programme for the Forum and to offer delegates an opportunity to gain first-hand experience of presenting to an audience in an atmosphere of enquiry and support.

1. Student delegate opportunity

Sub-theme: University sport as fertile ground for leadership development

Whilst a keynote speaker will be appointed to this sub-theme by the OC, the remaining keynote speaker opportunities will be offered to up to three student delegates to the Forum who will have qualified through the submission of a small piece of work prior to the event (ie by **March 2nd, 2012**).

A student delegate will need to prepare a PowerPoint presentation of no more than 5 slides together with the accompanying dialogue (offered in written form) which s/he would give if invited to present, based on this topic. The presentation may last no longer than 15 minutes. It can be presented in French or English. By calling the delegate a student, this will be defined as a student in current, full time higher education or one year down during academic year 2011-12.

Using the sub-theme title above, the student delegate is asked to demonstrate what leadership knowledge and skills s/he has developed through reference to his/her roles and experience in the last 2-5 years in sport in university, in his/her NUSF (National University Sport Federation) and even in continental federation activity, and then enlarge on how he/she will apply that knowledge skill and experience to develop the agenda for the new Student Committee which is now being established in FISU.

A student delegate's submission may arrive by e-mail plus attachment addressed to Kole Gjelosaj at k.gjeloshaj@fisu.net, or be addressed to Kole at the FISU Headquarters address in Brussels by overland postage, but the presentation and text must be enclosed in a disc or USB stick. Whichever method a delegate chooses, March 2nd, 2012 is the closing date for submission.

CESU will select the final student delegate speakers for this sub-theme for the Forum during the first full week in March (3-10 March, 2012) and FISU office will inform the winners of their position in the Forum programme by 12 March, 2012.

Note: FISU is formally establishing a Students Committee during 2011-12: three out of the ten members of this committee will be selected to the Students Committee during the FISU Forum in Taipei, and will serve on the FISU Students Committee for a period of two (2) years. Seven (7) members were selected back in November 2011 via a nomination process launched in September 2011, and the remaining 3 positions will be selected by CESU by the end of the Forum.

The outcomes of work around this sub-theme may be used as one of the assessment tools toward selection to serve within FISU in the Students Committee over the next 2 years, so student delegates are urged to take advantage of this opportunity.

For additional information concerning this opportunity, please visit Ed Imo's office located at the Gym or email him at e.imo@amsamoa.edu or call 699-6080.

LOGIC PROBLEM

Hotel Bill

Three people check into a hotel. They pay \$30 to the manager and go to their room. The manager finds out that the room rate is \$25 and gives the bellboy \$5 to return to the guests. On the way to the room the bellboy reasons that \$5 would be difficult to split among three people so he pockets \$2 and gives \$1 to each person. Now each person paid \$10 and got back \$1. So they paid \$9 each, totaling \$27. The bellboy has another \$2, adding up to \$29.

Where is the remaining \$1?

FUN FACTS:

➤ Couples' personalities converge over time to make partners more and more similar.

➤ About 200 babies are born worldwide every minute.

➤ The most children born to one woman was 69! She was a peasant who lived a 40 year life, in which she had 16 twins, 7 triplets, and 4 quadruplets.

➤ You burn more calories sleeping, than you do watching television.

➤ One in five long long-term love relationships began with one or both partners being involved with others.

Solution to "A Safe Place":

1) Playing Baseball 2) A Catcher 3) 3rd Base

Thought for the day:

Live every moment. Laugh every day. Love beyond words ☺
