ASCC Foundation Launches Support Drive

By James Kneubuhl, ASCC Press Officer

This month, the American Samoa Community College (ASCC) Foundation will begin an ongoing series of fundraising activities to raise supplemental resources designed to assist the College in expanding its programs and services in areas not covered at the present time by the institution's existing resources. "Our long term goal is to secure support from the public that will enable ASCC to improve our staff and

faculty's skills, provide essential facilities and equipment, and ensure student access to scholarships and other assistance," said Foundation Director John Ah Sue.

Formed in 1970, the same year that ASCC was established, the ASCC Foundation seeks supplemental resources to assist the College in accomplishing its mission. The ASCC Foundation is committed to helping maintain the high quality of education students receive from ASCC, a goal which can only be achieved when adequate funding is secured for activities such as professional development, utilization of current educational technology, and providing resources for qualified students who are not eligible for the same federal assistance as most young adults in American Samoa.

"Our registration numbers are higher than ever, and the College seeks to expand its services and capabilities in needed areas," said Ah Sue, "but at the same time we need to stay within our allocated resources from the government. The ASCC Foundation will make a direct appeal to the Community to not only help maintain the high level of education for our students, but also to help us go that extra mile in areas of crucial need. The more the community supports us, the more we can improve."

Ah Sue explained that the Foundation's appeal to the public will initially take the form of contacting individuals and business by mail. "We would like to establish one-on-one relationships with any individuals or companies who can offer support," he said, "so that we can accommodate both those who would like recognition for their support as well as those who prefer more discretion. As the Foundation becomes established, we will look at ways to offer opportunities to support ASCC through different kinds of activities and public events." He said that all donations to the College through the Foundation are tax-deductible, with the Foundation having secured its 501-C status.

"Through the Foundation, we hope to network with friends and supporters of ASCC," said Ah Sue. "Whether they'd like to just make a small contribution or whether they're interested in facilitating a tax deductible scholarship in the name of individuals, organizations or businesses, we welcome all contact with members of the public and private sectors. We hope that the community as well as those living abroad with local roots will see supporting ASCC as an investment in American Samoa's future. With our current economic situation, as well as the cost of going off-island for college, we need to offer our sons and daughters the best educational opportunities that we can provide here on island. While the College does the best it can with its existing resources, the more we can increase our support from the public, the more avenues of opportunity we can offer our students."

Anyone seeking more information on the ASCC Foundation can contact John Ah Sue directly at 699-9155, ext. 301 or 401. Inquiries by mail can be addressed to American Samoa Community College Foundation/ P.O. Box 5200/ Pago Pago, American Samoa/ 96799. The Foundation's email address is foundation@amsamoa.edu. Those seeking more information online can visit www.asccfoundation.org or the Foundation's Facebook page at www.facebook.com/AmericanSamoaCollegeFoundation.

Word of the Day

kakistocracy (kak-uh-stok-ruh-see) noun

Government by the worst persons; a form of government in which the worst persons are in power.

FUN FACTS:

- 1) Ants never sleep.
- 2) *A mule won't sink in quicksand, but a donkey will.*
- 3) The strongest muscle in the human body is the tongue.
- 4) *A goldfish has a memory span of 3 seconds.*
- 5) The letter "n" ends ALL Japanese words not ending in a vowel.

Oh honey, you must have been confused. You're supposed to live out Bible verses, not just get them tattooed and hope that does the trick.

The More You Know...

The Elephant Rope

As a man was passing the elephants, he suddenly stopped, confused by the fact that these huge creatures were being held by only a small rope tied to their front leg. No chains, no cages. It was obvious that the elephants could, at anytime, break away from their bonds but for some reason, they did not.

He saw a trainer nearby and asked why these animals just stood there and made no attempt to get away. "Well," trainer said, "when they are very young and much smaller we use the same size rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free."

The man was amazed. These animals could at any time break free from their bonds but because they believed they couldn't, they were stuck right where they were.

Like the elephants, how many of us go through life hanging onto a belief that we cannot do something, simply because we failed at it once before?

Moral: *Failure is part of learning; we should never give up the struggle in life.*

Thought for the day:

If you really want to do something, you'll find a way; if you don't you'll find an excuse ☺

Have a great week ☺
